PROJECTS

Netflix Clone Frontend | *HTML, CSS, JavaScript*

May 2023

- Developed a responsive Netflix clone front page using HTML, CSS, and JavaScript, mimicking the original Netflix interface.
- Utilized modern web design techniques to create a dynamic navigation menu and media carousels for seamless user experience across devices.

Cricket Quiz Application | *HTML, CSS, JavaScript*

Jan 2023

- Created an interactive Cricket Quiz application with multiple-choice questions, score tracking, and a responsive design.
- Demonstrated frontend development skills by ensuring compatibility across multiple devices.

Employee Trends Analysis | *SQL*

Sept 2023

- Analyzed employee data to uncover key workforce insights by writing complex SQL queries to calculate department-wise employee counts, average ages, and job satisfaction across various education levels and age bands.
- Developed data-driven reports on attrition rates and job satisfaction trends, identifying high-risk age bands and departments with the highest or lowest satisfaction, helping improve HR decision-making and employee retention strategies.

EXTRA-CURRICULAR ACTIVITIES

Senior Core Editorial Member, Leo Club

Apr 2023 – Present

Vellore, India

- Amplified impact through effective storytelling and communication at Leo NGO, crafting narratives on social issues and campaigns to drive engagement.
