A highly motivated IT Engineering student from VIT, Vellore with a strong foundation Python programming, network security, database management, data structures, algorithms, operating systems, and computer networks. Proven ability to solve complex problems through coursework and collaborative projects. Seeking an internship opportunity to leverage my technical skills and passion for innovation, while contributing to real-world IT solutions and learning from industry professionals. Additionally, I am an active member of the Editorial Team for the Leo Club, an NGO at my university.
